INDIAN AGRICULTURE SCENARIO

The Indian Agriculture Industry is at the verge of a revolution that will modernize the entire food chain in India and as the total food production in India is likely to double in the next ten years. Today there are excellent business prospects, competitive pricing of agricultural product standards that are compared internationally which has created trade opportunities in the agro industry.

The agricultural sector in India is the largest sector in the country's economy. It contributes almost 18.5% to India's GDP, Indian Agricultural Industry also assumes significance owing to India's sizable agrarian economy, which contributes over 35% of GDP and employs around 65 % of the population. The consumer food segment goods have top priority both in terms of foreign investment and number of joint- ventures / foreign collaborations. Indian Agricultural Industry that have the capacity to lure world agriculture market with promising benefits are the deep sea fishing, aqua culture, milk and milk products, meat and poultry segments.

The statistics convey that the Indian Agricultural Industry today is the world's second largest producer of food. From canned, dairy, processed, frozen food to fisheries, meat, poultry, food grains, alcoholic beverages & soft drinks, the Indian agro industry has dainty areas to choose for business.
